

September 05, 2025:

I am still experiencing an intrusive military spying and surveillance presence inside of our home that is desperately seeking to interfere with my life in very intrusive and personal ways. The goal of this interference campaign is clearly to grab my attention from anything productive or positive and move it to their oppressive and menacing actions instead.

I am absolutely disgusted by the actions that are being taken on behalf of Donald Trump and his criminal enterprise. I am witnessing murders. I am witnessing a constant overwhelming presence that is actually raping a person's life. I am witnessing a power within the United States government that has complete disregard for any rule of law.

Shame on you, America. Shame on you, Donald Trump. Shame on you, American military and every member of the Republican Party that continues to accept gifts, awards, compensation, or accolades from such an desperate and disgusting criminal.

I cannot stress to the world enough how disappointed I am to see the true nature of America and its pitiful lack of leadership. America, you are a miserable disgrace.

I am truly, completely disgusted by the presence that continues to force itself into our life inside of our home - no matter where we are in the world. This is a national embarrassment and an ongoing international crime.

I am truly saddened to be living in a world that would allow a person to continue this form of abuse while remaining in a leadership role of any community or company.
